

INED is recruiting

2 tenured researchers

Demography and associated disciplines

INED will be hiring two tenured researchers in 2021.

The French Institute for Demographic Studies is a public research institute. Its missions include conducting cutting-edge research in all fields relating to demography and population studies, training junior researchers, and informing the public of its research activities. Thanks to its ten research units, INED encourages exchanges between disciplines and conducts a world-class research programme.

Context

This work involves a wide variety of approaches (demography, sociology, economics, history, geography, medicine, epidemiology, statistics, anthropology, etc.).

Over the next few years, INED's research plan (see link to website - <https://www.ined.fr/en/institute/who-are-we/reference-documents/>) covers the following major themes and sub-themes:

- Ages of life: childhood, education and transition to adulthood; conjugality and fertility; parenthood and family; gender and sexuality; life trajectories, socio-economic inequality and mobility; living conditions at advanced age.
- Population health: inequality and disparities; longevity; epidemiological transition in the Global North and South; health and sexual and reproductive rights.
- Space, mobility and migration: housing; mobility and territorial dynamics; migrants' life trajectories; inequality, discrimination and racism.
- Crises and populations: population groups and environment; consequences of health crises; political and socio-economic upheavals and demographic trends.

This research makes use of an extensive range of data: surveys, archives, administrative data, company data, geographical and remote-sensing data, Big Data, etc. These cover France and other countries, especially for international comparisons. INED also has a long tradition of research on the Global South. Historical research has a major place in INED's work. Much of our research also examines interactions between stakeholders and public policy.

Job description

The successful applicant will enjoy permanent researcher status. They will define their research within the framework of the unit or units they are affiliated to. They will contribute to activities for promoting and managing research. They will also contribute to training for research through research.

Qualifications

The applicant will have a PhD in a discipline relevant for population studies (demography, sociology, economics, history, geography, anthropology, epidemiology, medicine, statistics, etc.) and expertise in quantitative techniques applied to social sciences.

Desired experience

A range of experiences (working within different research units or institutes, teaching, experience abroad, survey work, organizing research events, etc.) will be appreciated, as well as an openness to interdisciplinary work and to multi-method approaches (for example, quantitative and qualitative techniques).

Post: Research scientist

Qualification required: PhD

Location: INED, Campus Condorcet, 9 cours des Humanités, 93322 Aubervilliers cedex (Grand Paris)

No age, gender or nationality requisites

Competition opening date: 22 December 2020

Deadline for applications: 22 January 2021

More information available at:

<https://www.ined.fr/en/institute/joining-ined/competitive-examination/researchers-exams/>

For any questions relating to the administrative part of the application, candidates can contact the « Bureau des concours chercheurs »: Pascale Obame, telephone: +33(0)1.56.06.20.72, pascale.obame@ined.fr.

For questions relating to the scientific part of the application, candidates can contact the research units' coordinators, according to their research interests. They will be able to answer questions on the position, their research unit, working conditions etc.:

Fertility, families and couples [UR03]: Arnaud Régnier-Loilier arnaud.regnier-loilier@ined.fr

Gender, sexuality and inequalities [UR04]: Marie Bergström marie.bergstrom@ined.fr et Mathieu Trachman mathieu.trachman@ined.fr

Mortality, health and epidemiology [UR05]: Carlo-Giovanni Camarda carlo-giovanni.camarda@ined.fr et Myriam Khat khlat@ined.fr

Housing, spatial inequalities and trajectories [UR06]: Joanie Cayouette-Remblière joanie.cayouette-rembliere@ined.fr

International migrations and minorities [UR08]: Mathieu Ichou mathieu.ichou@ined.fr et Ognjen Obucina ognjen.obucina@ined.fr

Economic demography [UR09]: Carole Bonnet carole.bonnet@ined.fr et Ariane Pailhé ariane.pailhe@ined.fr

History and populations [UR11]: Lionel Kesztenbaum lionel.kesztenbaum@ined.fr and Christine Théré ch_there@ined.fr

Mobility, Trajectories and territories [UR12]: Alain Blum blum@ined.fr

Sexual and reproductive health and rights [UR14]: Élise de la Rochebrochard roche@ined.fr

Demography of southern populations [UR15]: Géraldine Duthé geraldine.duthe@ined.fr and Valérie Golaz Valerie.golaz@ined.fr
