SUMMARY

RELATIONSHIP BETWEEN FAMILY PLANNING AND URBAN DEVELOPMENT

FAMILY PLANNING AND URBAN DEVELOPMENT

WHY URBAN SPACES?

- **Increasing urbanization**

1. Today about 55% of the population live in urban spaces

- 70% by 2050 - over 90% of this increase will be in Africa and Asia

2. Hidden unplanned hazardous settlements

WHY IS THE FOCUS OF FAMILY PLANNING IN URBAN AREAS IMPORTANT?

•Increased complexity in Urban Health Systems

- Diverse /transient population
- Weak and thin public health care providers
- Growing private health care providers

ROLE OF EVIDENCE IN TACKLING FP CHALLENGES IN URBAN HEALTH SYSTEMS

•Role of evidence in urban FP

- Unmasking hidden challenges
- Creating a case for investment
- Providing a basis for targeted interventions

THE EXPLORATION PROCESS

WHAT WE SET OUT TO DO

The aim is to explore the linkages between urban and family planning stakeholders

HOW WE DID IT

- **Participant selection**

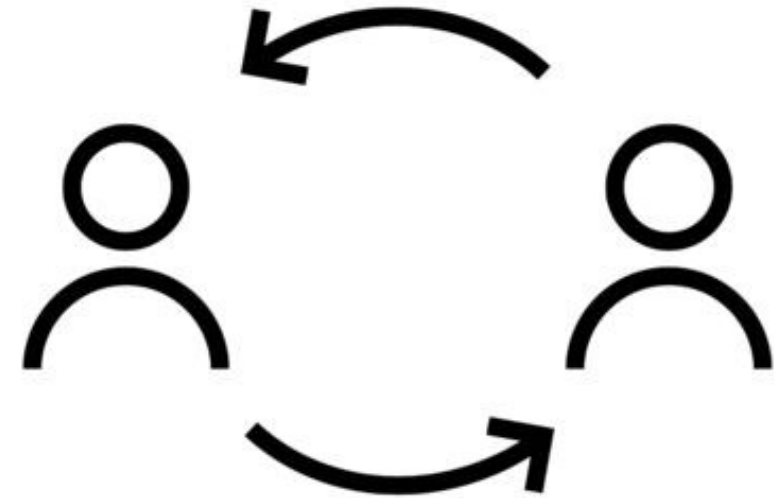

- Study location: Kira municipality, Wakiso, Uganda
- Purposive selection
- 4 national, 3 district & 3 municipality levels

- **Data collection**

- Individual qualitative Interviews

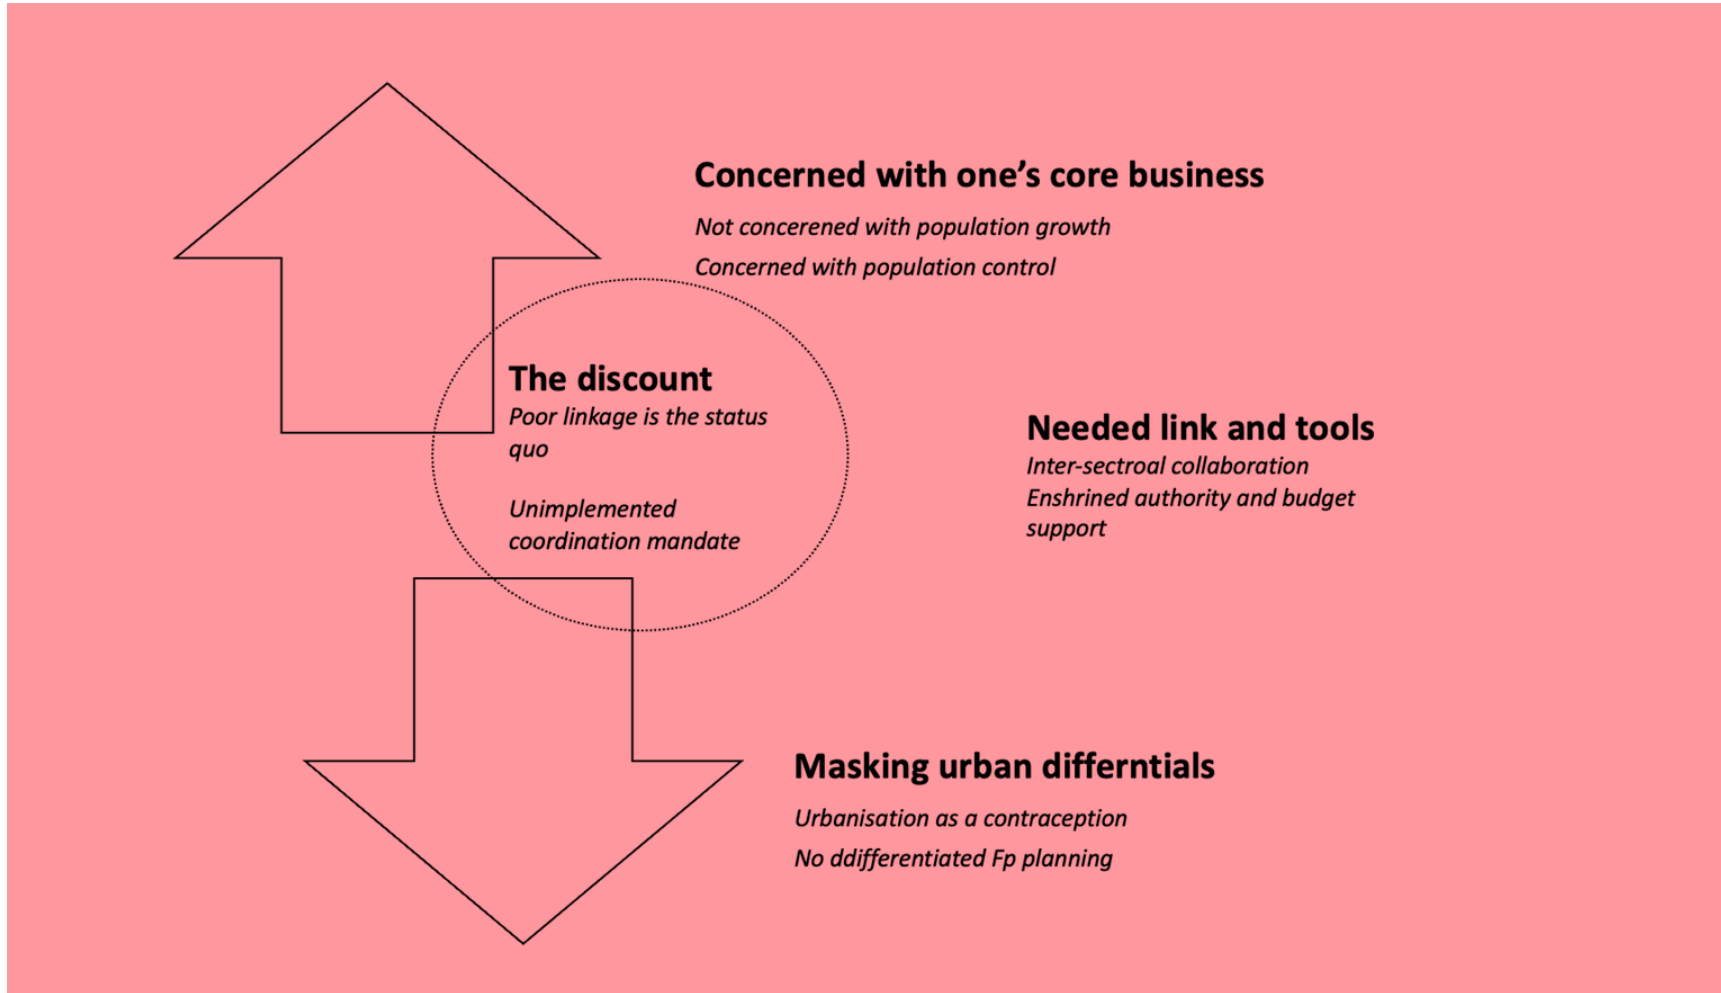

- **Data analysis**

- Thematic analysis

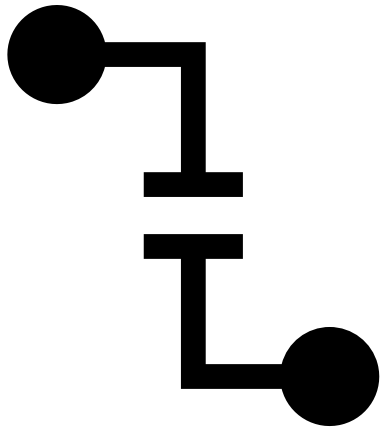

THE LINKAGES

RESULTS

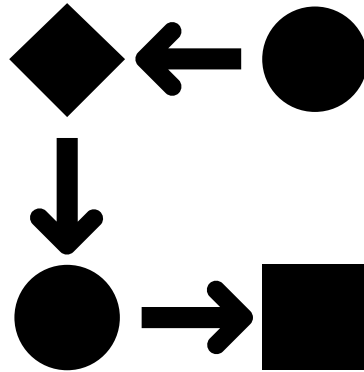

SUMMARY

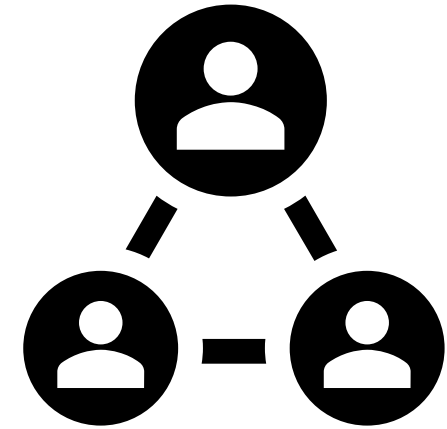

TAKE AWAYS

Linkage of FP and Urban development not clear cut

Limited coordination across the sectors

Appreciation of the need to increase coordination between FP and Urban development

Thank you!
