International Conference on Population and Development with Low Fertility

Fertility rates are falling rapidly all over the world. Currently, nearly half of countries have a TFR below replacement level, with some western developed countries and East Asian countries even experiencing super-low fertility. Sustained low fertility will inevitably lead to many demographic challenges such as accelerated aging, shrinking family size and negative population growth etc.

To address such new challenges and exchange ideas in terms of population and development among scholars from various countries concerned, the editorial office of *China Population and Development Studies*, the China Population and Development Research Center, China Population Association will hold an international conference on Population and Development with Low Fertility.

1. **Time:** Sep 26th - 27th, 2023
2. **Venue:** Beijing, China for offline conference and Zoom for online conference
3. **Fee:** No registration fee for the conference. The working lunch and the interpretation (only Chinese and English) will be provided by the host, while other expenses are expected to be covered by the participants.
4. **Topics:**
 - ✓ Population dynamic, low fertility, negative population growth;
 - ✓ Changes on family structure, marriage, the second demographic transition, and intergeneration relationship;
 - ✓ Gender roles and work-family balance;
 - ✓ Population aging, health and longevity;

- ✓ Policy responses to low fertility;

.....Unpublished research papers concerning above topics are invited. Research is not limited to China and comparative studies between China and other countries are welcomed.

5. Abstract Submission

- ✓ Deadline: June 15th, 2023
- ✓ Length: 500-word abstract in English, including research purpose, methods, data, main findings and conclusions
- ✓ E-mail: cpds2021@163.com

All submitted conference abstracts will be reviewed by competent reviewers. Notification of acceptance will be issued to selected authors before July 5th.

6. **Contact Us:** 8610- 62173517(Tel), 8610-62179124(Fax), cpds2021@163.com

China Population and Development Studies is the flagship journal of the China Population Association, hosted by China Population and Development Research Center. Collaborating with Springer Nature since 2018, this quarterly journal encompasses a wide variety of latest research to population and development issues in China including original articles, policy commentaries, survey reports, and comparative studies. The journal follows a double-blind peer review procedure.
