

Nomination for Professor K. Srinivasan

We nominate **Professor Krishnamurthy Srinivasan** for the IUSSP Laureate Award. He has made significant contributions in the field of demographic teaching, research, and evaluation of family planning programs. Over several decades of a career spread across various universities and institutions in India and abroad, he has made a distinctive mark through his path-breaking research, publications, teaching, and leadership.

As Director of the International Institute for Population Sciences (IIPS) for more than 14 years, Professor Srinivasan played a crucial role in shaping demographic teaching and research in Asia. Under his leadership, IIPS emerged as a pioneer institution and the only university in the world exclusively devoted to demographic teaching and research. During his tenure, large numbers of demographers from a diversity of Asian countries were trained at IIPS and now occupy key positions in organizations and universities across the globe. Under his leadership, India initiated the Demographic Health Survey (DHS) - known as the National Family Health Survey (NFHS) - in 1992, considered the largest demographic and health survey in the world.

From 1995 to 2002, as Executive Director of the Population Foundation of India (PFI), Dr. Srinivasan promoted and enhanced the role of non-governmental organizations and the corporate sector in family planning and reproductive and child health programs (RCH) in India. He worked with UN organizations and was Visiting Professor at many leading institutions, including the Australian National University and the University of North Carolina.

He has been an active member of the IUSSP for over fifty years, serving as a member of IUSSP Committees on Demographic Aspects of Family Planning Program (1971-1974 and 1974-1977), Comparative Analysis of Fertility (1978-1982), Population and Policy in LDCs (1986-1991), and the Economic Consequences of Alternative Demographic Patterns (1981-1985). When India hosted the IUSSP International Population Conference in 1989, he played a key role in the successful organization of the conference in New Delhi.

We believe it is appropriate to recognize the valuable contributions of this most senior demographer.

Dr. T.V. Sekher (India), Dr. Frans Willekens (Netherlands), Dr. Christophe Z Guilmoto (France), Dr. Sureeporn Punpuing (Thailand), Dr. Mahesh Puri (Nepal), Dr. Sharifa Begum (Bangladesh).

(Next pages: brief bio and detailed CV of Professor K. Srinivasan).

Professor Krishnamurthy Srinivasan - bio sketch

Professor K. Srinivasan obtained a master's degree in Mathematics from the Madras University and subsequently graduated with distinction from the Indian Statistical Institute (ISI), Kolkata, with a master's degree in Statistics. He went on to obtain a Master of Public Health from Harvard University. In 1968, Prof. Srinivasan graduated with a PhD in demography. His PhD thesis on birth intervals continues to be cited widely even today.

Prof. K. Srinivasan has made valuable contributions in the area of population studies and programs since 1959. He is not only an internationally acclaimed academician in the field of demography, a teacher, and a researcher but also has served the country through various national and international committees and associations. He was a member of the National Statistical Commission set up by the Government of India in January 2000, which submitted its report in August 2001 to the Prime Minister recommending revamping the statistical system in the country. He also served as a member of the Working Group on Population Policy set by the Planning Commission during 1978-79 for drafting the population policy for the sixth five-year plan, 1980-85. During 1995 to 2002, as the Executive Director of the Population Foundation of India (PFI), New Delhi, an organization founded by the late Mr. JRD Tata, he promoted and enhanced the role of non-governmental organizations and the corporate sector in family planning and reproductive and child health programs. He was awarded the National Fellow in 2013-2015 by the Indian Council for Social Science Research (ICSSR), New Delhi to review the history of family planning programs in India.

He has also made contributions to other developing countries in the field of Population Studies and research under the auspices of the United Nations and other international organizations. He was employed with the Population Division of the United Nations at their ESCAP office in Bangkok and his work has been well appreciated by other countries. He was the Chairman of a group set up by the WHO and the United Nations Populations Fund (UNFPA) to review Population Research Centers in China between 1981 and 1983 and was subsequently awarded a scroll of honor by the Government of China in appreciation of his work. He was also a member of the IUSSP sub-committee on Comparative Analysis of Fertility (1977-1981), and the sub-committee on Demographic Aspects of Family Planning Program (1973-1977).

As a senior Professor and Director of the International Institute for Population Sciences (IIPS) in Mumbai from 1978 to 1992, he expanded the academic and geographic scope of the institute by making it a [deemed](#) university and training a large number of students from other Asian countries with financial assistance from the UNFPA. He was also instrumental in starting the National Family Health Survey (NFHS-1) in the country during 1991-1992. He has numerous books and chapters and 100 national and international peer-reviewed academic publications to his credit. His seminal work on birth intervals done in the 1960s continues to be cited widely. His most recent book published in 2017, *Population Concerns in India: Shifting trends, policies and programs*, has been released in three languages. He continues to be actively involved in research, writing, and guiding other academicians, researchers and young scholars in demography and contributing to various research institutions and professional associations in the country.

Krishnamurthy Srinivasan

Curriculum Vitae

EDUCATIONAL QUALIFICATIONS

- 1954 : Master of Arts in Mathematics (M.A.), University of Madras, India.
- 1959 : Master of Statistics (M.Stat.), Indian Statistical Institute, Calcutta,
India. 1962 : Master of Public Health (M.P.H.), Harvard University, USA.
- 1968 : PhD in Demography, Kerala University, India.

PROFESSIONAL EXPERIENCE

- October 2013-October 2015: National Fellow, Indian Council for Social Science Research (ICSSR) and affiliated with the Madras Institute of Development Studies, Chennai
- November 2008- to present: Honorary Professor, Institute for Social and Economic Change (ISEC), Bangalore
- June 2002- June 2006: Emeritus Professor, International Institute for Population Sciences, Mumbai.
- August 1995 – May 2002: Executive Director, Population Foundation of India, New Delhi. I was responsible for funding, monitoring and evaluating reproductive, child health and family planning programs through non-governmental organizations. Was also involved in policy formulation at the national and state levels as a member of Committees constituted by the Central and State Governments.
- October 1993 -August 1995: Consultant in Population and Health, Bangalore.
- January 1993-December 1996: Adjunct Professor, School of Public Health, University of North Carolina, Chapel Hill, N.C, USA.
- September 1992-October 1993: Senior Fellow, Carolina Population Center, University of North Carolina, Chapel Hill, USA.
- September 1985-Sept.1986: Visiting Senior Fellow at the Department of Demography, Australian National University, Canberra, Australia.

- June 1978-September 1992: Senior Professor and Director, International Institute for Population Sciences, Mumbai. I was overall in-charge of the Institute's teaching, research and administration.
- February 1975 -June 1978: Director, Population Center, Bangalore. This is a project funded by World Bank and SIDA to design, implement and evaluate innovative approaches in the implementation of family planning projects in five districts in the state of Karnataka. A number of research schemes have been designed and experimented.
- June 1969-January 1975: Population Officer, United Nations Economic Commission for Asia and the Far East (ECAFE), Bangkok. I was invited by ECAFE to deal with the evaluation aspects of family planning in the countries of ECAFE Region. In this capacity, I have conducted a series of short-term courses on fertility and family planning evaluation, at national and sub-regional levels in India, Indonesia, Iran, Malaysia, and Korea. I have also organized comparative multinational research studies in family planning evaluation and target setting and a number of expert group meetings and seminars on different aspects of family planning evaluation. As a result of my work, I have been the recipient of tokens of appreciation from many governments in this region.
- July 1967-December 1967: Research associate at the Department of Biostatistics, School of Public Health, University of North Carolina, Chapel Hill, North Carolina, USA.
- December 1964-June 1969: Deputy Director, Institute of Rural Health and Family Planning, Gandhigram, Tamil Nadu. I was in charge of research activities at the institute. The research carried out by the institute in the field of family Planning and fertility analyses have gained wide recognition in India and abroad.
- August 1961-Dec. 1964: Research Officer, Pilot Health Project, Gandhigram. I was In-charge of Family Planning Communication Action Research Programs undertaken by the Project.
- August 1961-August 1962: Underwent a one-year Master's Degree Program with specialization in Population and Family Planning at Harvard University, School of Public Health, Boston, USA, during which time I was able to observe and study in person the health and family planning programs in a number of countries in Asia, Europe and America.
- May 1959-August 1961: Statistician, Pilot Health Project, Gandhigram, Madurai District, Tamil Nadu, India. I conducted baseline surveys and studies on health conditions in rural areas.

PROFESSIONAL AFFILIATIONS

1. Member, National Fund for Population Stabilization, 2003-
2. Member, National Statistical Commission, 1999- 2001.
3. Member, International Union for the Scientific Study of Population, Liege, Belgium.
4. President, Indian Association for the Study of Population, 1998-2000 & 2000-2002.
5. Chief Editor, Demography India, 1994-2000.
6. President, Indian Society for Medical Statistics, 1994
7. Nominated Member of the Standing Committee of Human Dimensions of Global Environmental Change Program (HDGEC), constituted by the International Social Science Council, 1991-1994.
8. Adjunct Professor, School of Public Health, University of North Carolina, Chapel Hill, NC USA, 1993-1996.
9. Member of the Advisory Council of Studies in Family Planning, Population Council, New York, 1985-1987.
10. Member of the Scientific Advisory Committee of the Demographic and Health Surveys Project of Westinghouse, 1985-1986.
11. Member, IUSSP Sub-Committee on Comparative Analysis of Fertility, 1977-1981.
12. Member, Working Group on Population Policy set up by the Planning Commission of India, 1978-79.
13. Member, IUSSP Sub-committee on Demographic Aspects of Family Planning Program, 1973-1977.
14. Vice- President, Indian Association for the Study of Population (IASP), 1976- 1978.

AWARDS RECEIVED

1. Honored for distinguished contributions to the development of the International Institute for Population Sciences, Mumbai, at the Golden Jubilee of the Institute held in December 2006.

2. Honored with the life time achievement award by the Kerala University in December 2004 during the silver jubilee celebrations of their Department of Demography.
3. Awarded the Ved Prakash Memorial Award for Lifetime work in Population Studies by the National Institute of Health and Family Welfare, July 1995.
4. Awarded a Scroll of Honor by the Government of People's Republic of China in 1983 for assisting them in developing Population Research Centers in China.

LIST OF PUBLICATIONS

A. BOOKS and Monographs.

1. Srinivasan, K (2017) “ **Population Concerns in India : Shifting Trends, Policies and Programs**”, Sage Publications India Pvt. Ltd, 2017..This book has been translated into Marathi and Hindi languages by the Sage India under their Sage Basha Program in 2019 and sold in the Hindi speaking states of the North and in Maharashtra stste.
2. Srinivasan, K (2016) “**Malnutrition and mortality among children in India: A need to revisit the ICDS Program**”, First Professor John Caldwell Memorial Lecture delivered on 24 September 2016 at the Gokhale Institute of Politics and Economics,Pune and published by Indian Association for Social Sciences and Health , Mumbai.
3. Srinivasan, K and M.S. Selvan (2015) “ **Governance and Development in India: A Review of Studies and Suggestions for Further Research**” MIDS Working Paper No. 219 , Madras Institute of Development Studies, Chennai.
4. Srinivasan, K (2014) “**Family Planning Programs in India: An Overview and Need for a Revision**”, MIDS Working Paper, No.216, Madras Institute of Development Studies, Chennai
5. Srinivasan, K (2014) “ **Training Manual on Demographic Techniques**” prepared for the training of census officials and published by the Office of The Registrar General and Census Commissioner , Government of India, New Delhi.
