Summary

I hold a Master's degree in Population Studies, complemented by a background in Statistics, which has equipped me with a strong capability in monitoring and evaluation. As the Manager of Monitoring and Evaluation at HelpAge India and a former Junior Analyst at Ummeed Child Development Center, I focus on designing monitoring frameworks, assessing program effectiveness, and leveraging data to guide strategic decisions. My proficiency in MS Excel, Stata, and Power BI enables me to analyze complex data sets and present findings through impactful dashboards and reports. My expertise lies in enhancing program efficiency, facilitating decision-making, and developing digital tools to fulfill organizational monitoring and reporting requirements.

Experience

Manager- Monitoring and Evaluation — July 2024 – present
HelpAge India HO — *New Delhi, India*

- I am the Manager-Monitoring Evaluation at HelpAge India, responsible for program analysis and evaluation, the SinglePoint of Contact (SPOC) for dashboard and app development for the internal team. My work involves monitoring evaluating program impact and influence, developing monitoringframeworks and in-depth assessments; I use basic analytic tools like MS Excel, Stata, Power BI MS Projects. I am responsible for data collection, reporting, and impact evaluation related tothe programs of the organaization, and I work with stakeholders to ensure that programs are being implemented effectively and improvements are made as needed. I also advise on the design and development of digital tools so that they are fit for the organizational monitoring and reportingneeds to drive program effectiveness and inform decisions.
