

CURRICULUM VITAE

A.) Summary of experience

Sunday A. Adedini is a health demographer with nearly two decades of experience in demography, population studies, and public health research. He earned his PhD from the University of the Witwatersrand, Johannesburg, South Africa, and has since built a career that bridges academia and applied research across Africa. His scholarly work has considerably advanced understanding in maternal and child health, sexual and reproductive health, family planning, and urban demography—especially in addressing health disparities affecting women and newborns in sub-Saharan Africa. Professor Adedini has led research initiatives on critical issues, including mortality surveillance, gender dynamics in vaccination uptake, HIV/AIDS interventions, demographic estimation, demographic transitions, and the quality of maternal care within RMNCAEH+N frameworks. One of his notable achievements is establishing South Africa's first urban-based Health and Demographic Surveillance System, a model he is now replicating in Nigeria. His work has garnered numerous awards, fellowships, and competitive research grants from global donors and foundations.

Currently, Sunday A. Adedini is the Dean of the Faculty of Social Sciences at the Federal University Oye-Ekiti and also a Professor in the Department of Demography and Social Statistics. He holds a concurrent appointment as a Research Fellow at the Programme in Demography and Population Studies, University of the Witwatersrand, South Africa. His previous roles include Senior Lecturer at Obafemi Awolowo University, Ile-Ife, Nigeria, and Programme Manager and Head Demographer at the Vaccine and Infectious Disease Analytics Research Unit, Wits University, South Africa. Professor Adedini has held other key leadership positions, such as Head of Department and Director of Strategic Partnerships, Linkages, and Collaborations at Federal University Oye-Ekiti. As a dedicated mentor, he has trained many postgraduate students at both master's and doctoral levels and actively supports early-career researchers through training and mentorship initiatives. With presentations at more than 50 international conferences and over 100 highly cited peer-reviewed publications, he ranks among the top 3% of researchers in his field globally.

- VIII. **[2013-2016]: Lecturer Grade 1**, Demography and Social Statistics Department, Obafemi Awolowo University, Ile-Ife, Nigeria.
- IX. **[2010-2013]: Assistant Lecturer**, Demography and Social Statistics Department, Obafemi Awolowo University, Ile-Ife, Nigeria.
- X. **[2007-2010]: Graduate Assistant**, Demography and Social Statistics Department, Obafemi Awolowo University, Ile-Ife, Nigeria.
- XI. **[2015 to date] Research Fellow**: Demography and Population Studies Programme, University of the Witwatersrand, Johannesburg, South Africa.

2.) Students' research supervision and theses/dissertations examination

a.) Undergraduate and Postgraduate students' supervision

I have supervised and co-supervised undergraduate and postgraduate students' dissertations in different fields of demography, social statistics, population studies, and public health

I. Postgraduate students supervised to completion: Fifteen (15) students – (2 PhDs, 1 MPhil, and 12 MSc dissertations supervised),

II. Current postgraduate student supervision: Six (6) – 3 Ph.D. theses, and 4 Masters' dissertations.

Title of Ph.D. theses currently under my supervision:

--(1) Social contexts of childhood malnutrition in low-income communities in South Africa.

--(2) Maternal and newborn health services utilisation and under-five mortality in Nigeria: Patterns, Differentials, and Determinants

III. Undergraduate students supervised to date: over 70 students' research reports completed

IV. Current undergraduate students' supervision: Ten (10)

b.) External examination of graduate students' theses/dissertations:

(Ten PhD theses examined, and 20 MSc dissertations examined. See below:)

I. [2025] External Examiner for an MSc student in the Department of Demography and

Social Statistics, Obafemi Awolowo University, Ile-Ife (28/07/2025)

- II. **[2025] External Examiner** for an MSc student in the Department of Demography and Social Statistics, Obafemi Awolowo University, Ile-Ife (31/07/2025)
- III. **[2024] External Examiner** for an MSc student in the Department of Demography and Social Statistics, Obafemi Awolowo University, Ile-Ife (29/04/2024)
- IV. **[2024] External Examiner** for an MSc student in the Department of Demography and Social Statistics, Obafemi Awolowo University, Ile-Ife (20/09/2024)
- V. **[2023] External Examiner** for a Ph.D. student in the School of Public Health, University of the Witwatersrand, Johannesburg, South Africa
- VI. **[2023] External Examiner** for an MSc student in the Department of Demography and Social Statistics, Obafemi Awolowo University, Ile-Ife (13/11/2023)
- VII. **[2023] External Examiner** for a Ph.D. student in the Department of Sociology, University of Ibadan, Nigeria (11/08/2023).
- VIII. **[2023] External Examiner** for Ph.D. candidate in Public Health, University of the Western Cape, South Africa. (1 Ph.D. thesis examined).
- IX. **[2021] External Examiner** for a Ph.D. candidate in Epidemiology and Medical Statistics, University of Ibadan, Nigeria (1 Ph.D. thesis examined).
- X. **[2019 to date] External Examiner** for Ph.D./Masters candidates in Population Studies at the North-west University, Mahikeng, South Africa (3 Ph.D. theses and 5 Masters' dissertations examined).
- XI. **[2019] External Examiner** for the Graduate Programme in Demography at the University of Cape Town (UCT), Cape Town, South Africa (1 Master's dissertation examined).
- XII. **[2015] External Examiner** for the Graduate Studies at the College of Business and Management Sciences, Makerere University, Kampala, Uganda (1 Master's dissertation examined).
- XIII. **[2013 to date] External Examiner** for Masters and Ph.D. students in Demography and Population Studies, University of the Witwatersrand, Johannesburg, South Africa (3 Ph.D. theses and 9 Masters' dissertations examined).

Assessment of Candidates for Promotion

- 1. **[2025]:** External Assessor for expert opinion on the postdoctoral project of a candidate in Bremen University, Germany
- 2. **[2024]:** External Assessor for Dr Suzanne Bell's Candidacy for the Position of Associate Professor at Johns Hopkins University, USA
- 3. **[2024]:** External Assessor for the assessment of a candidate for promotion to the rank of Associate Professor at the University of Rwanda.

4. **[2022]**: Internal Assessor of Faculty members for promotion to the rank of Senior Lecturer, Federal University Oye-Ekiti, Nigeria

F. Details of teaching and research

1.) Teaching

From 2007 to date, I have taught and co-taught several courses in the fields of Demography, Social Statistics, Population Studies, and Public Health at the undergraduate and postgraduate levels; and a research methodology course in the field of Vaccinology at the postgraduate level. I have taught small and large classes, ranging from 40 to 2,000 students in a single class at the undergraduate level; and 6 to 35 students at the postgraduate level. I have had face-to-face interactions with an estimated 10,000 or more students who are nationals of Nigeria, Ethiopia, Lesotho, Rwanda, South Africa, Uganda, Kenya, Tanzania, Zambia, Zimbabwe, etc. The report of my teaching performance at Wits University from students' anonymous evaluation gave a higher score than the university average and confirmed my good teaching capability. The courses taught during my career in various Universities are presented below:

Courses taught during my academic career:

1. Research Methods in Demography and Social Statistics
2. Social Statistics
3. Advanced Social Statistics
4. Statistics for Social and Demographic Surveys
5. Statistical Analysis in Demographic Research
6. Mathematics for Social Scientists
7. Measures of Population Change
8. Demographic Data Evaluation
9. Sexual and Reproductive Health
10. Social Aspects of Family Planning
11. Population Projections
12. Population Theories and Concepts
13. Introduction to Population Studies
14. Introduction to Demographic Methods
15. Basic Demographic Methods
16. Advanced Demographic Techniques
17. Fertility and Reproductive Health
18. Health Demography
19. Population and Development
20. Population and Politics
21. Population and Environment
22. Population, Environment and Development
23. Population, Poverty and Policy
24. Demography of Ageing

2.) Research portfolio

A short summary of my niche area and contribution to knowledge

I am a health demographer and population scientist. I have 15 years of research experience with interests broadly in child health and sexual and reproductive health of women and young people. In terms of the whole spectrum of research, I have experience in conceptualizing research ideas, research design, fundraising (*with 10 research grants*), research implementation, practical field research experience (spanning quantitative and qualitative research, monitoring and evaluation), management of diverse research team, data management and analysis, dissemination of research findings through stakeholders' engagement, conference presentations and publications of more than 80 articles in accredited peer-reviewed journals. My articles listed in this CV (see Tables 2A and 2B) address different topical issues. First, I have authored/co-authored forty-eight (60) articles in the area of maternal and child health. Second, eighteen (18) of my articles address the issues of men's health, youth sexual and reproductive health, adult health, HIV/AIDS, fertility and methodology issues. These articles have been widely cited by many authors in the fields of population and public health. My Google Scholar citations, h-index, and i10-index are 1316, 21, and 32, respectively. All my articles demonstrate good knowledge of demographic and public health literature. The methodological approach, particularly the multilevel modeling employed in a number of the publications is novel and most appropriate for disentangling the influence of broad socio-economic, demographic and environmental factors on health outcomes. In sum, all the articles listed in this CV have advanced the frontier of knowledge and have made original contributions to the literature.
